

New York Stock Market

New York, March 24.—When the stock market opened to-day, after the triple holiday period, there was a brisk demand for stocks for about an hour. Leading shares were advanced a point or more. Then the trading fell off, and during the remainder of the session the market was flat. Early gains were cut into for a time, but toward the close stocks moved up again, and final figures were at about the high point of the day.

Speculative sentiment was more cheerful owing to several favorable developments over the holiday, but there was the same absence of buying power which has been a feature of the market for several weeks. The unexpectedly good bank statement and favorable signs as to the financial picture gave an unexpected lift to especially sentiment. A reduction in loans of about \$50,000,000 has been effected in the last three weeks, and for the first time in several months an increase in surplus over the corresponding week of the previous year was reported. Time money was easier, and aside from above-mentioned factors the period of stringency there was drawing toward an end. One sign of strength was found in advances by a number of the newer industries which recently have shown marked weakness. The Petroleum shares, Woolworth and Goodrich made good gains. There were a few weak spots, however. Rumely had thin points, and after a new low level, New Haven again relapsed, after a brief showing of strength.

Bonds were irregular, with a better undertone. Total sales, par value, \$1,533,000. United States bonds unchanged on call.

New York, March 24.—Money on call from 4.65 per cent. to 5.15 per cent. closing steady at offered at 4.64. Time closing easier, stay days 5.1-205.3-4 per month, nine days 5.1-2; six months, 5.1-195.1-2. Prime mercantile paper, 6 per cent. Sterling exchange firm, with actual business in bankers' bills, with actual business in bankers' bills, at \$4.83 for sixty-day bills and at \$4.83 for demand. Commercial bills, \$4.82. Bar silver, 53-4. Mexican dollars, 47-1-2. Government bonds steady. Railroad bonds irregular.
